## EDUCATION

---

### CDGI

*Bachelor of Technology in Computer Science*

Indore, Madhya Pradesh

*Aug. 2022 – May 2026*

## EXPERIENCE

---

### Software Development Intern

Sept 2024 – Feb 2025

*Merlin AI (Foyer Work)*

*Bengaluru*

- Developed 5+ key AI chat features, including chatbots, model selector, large context mode, quote functionality, and file preview system, boosting user retention by 20%
- Enhanced application reliability by resolving 50+ UI/UX issues across desktop platforms, improving user satisfaction
- Optimized keyboard shortcuts and interfaces, reducing average task execution time
- Contributed to 30+ code reviews and fixed 40+ bugs, improving codebase stability

### Full Stack Developer

Aug 2024 – Present

*Leapflow*

*Remote*

- Built and deployed a responsive landing page, increasing user engagement by 25% within the first month
- Implemented full-stack solutions using Next.js, Tailwind CSS, and Prisma, ensuring scalability and performance
- Collaborated with cross-functional teams to iterate on features based on user feedback

### Software Engineer Intern

Jun 2024 – Aug 2024

*DevKit Labs Private Limited*

*Remote*

- Developed 3 core features for techkareer ([www.techkareer.com](http://www.techkareer.com)) using Next.js, including opportunities page, resume parsing, and job filtering, serving 500+ users
- Configured database infrastructure with Prisma, handling 1,000+ daily queries with 99.9% uptime
- Collaborated remotely with a 6-member team, contributing to 20+ code reviews under mentorship of the company Director

## PROJECTS

---

### AutoDiagram | *NextJS, Tailwind CSS, Gemini, Prisma, Shadcn*

- Built an AI-powered tool that transforms text descriptions into professional-grade visual diagrams, supporting 20+ diagram types
- Designed a responsive frontend with NextJS and Tailwind CSS for seamless user interaction
- Integrated Gemini for AI-driven diagram generation and Prisma for efficient database management
- Deployed at [www.autodiagram.com](http://www.autodiagram.com), simplifying technical diagram creation; people bought it too (achieved 3 sales)

### GetAResume | *NextJS, Tailwind CSS, OpenAI, Prisma*

- Developed a one-click portfolio generator, serving over 1,250 users and creating 1.6K+ portfolios
- Leveraged OpenAI for intelligent content generation and Prisma for robust database handling
- Added a shareable link feature to enable easy distribution of user profiles
- Deployed at [www.getaresu.me](http://www.getaresu.me), enhancing user accessibility and experience

## OTHER TECH EXPERIENCE

---

- Organized "HackWave", my college's first hackathon attracting over 500 registered teams from across India
- Co-organized "Imagine Hackathon" by PanIIT Alumni India, Asia's largest design and code hackathon, hosting 36-hour challenges at Jio World Convention Centre, Mumbai, Jan 2025
- Won 15 out of 22 hackathons since Aug 2022, with notable victories at EthIndia 2024, Unfold 2024, IIT Indore, IIT Roorkee, DAVV Indore, and IIT Jammu

## TECHNICAL SKILLS

---

**Languages:** Typescript, Javascript, Solidity, Python, SQL (Postgres), HTML/CSS

**Frameworks:** NextJS, ExpressJS, React, Node.js, Shadcn-UI, FastAPI

**Developer Tools:** Git, Docker, Google Cloud Platform, VS Code, Visual Studio, Cursor

**Libraries:** Tailwind CSS, OpenAI, Gemini
